Subject: End of Agreed Order Compliance period

Tom, Nick, per the stipulations and requirements of the 001 IDEM Agreed Order, we have completed the 90 day observation period that started on February 1st. Given that we have not had any discharges of visible oil sheen into the Ship Canal during this period, we have now ceased sending daily inspections and photos of the Outfall to the agencies.

We will submit one final monthly report to IDEM before May 10th, as required.

Please note that as part of a BMP, we will continue to inspect this outfall daily, and maintain booms and absorbents within the outfall structure to as needed to collect any sheen that might appear.
